

Key Information Document

| | |
|---|--|
| Purpose | |
| This information sheet provides you with essential information about this investment product. It is not a promotional material. This information is required by law to help you understand the nature, risk, cost, and potential gains and losses of the product, and to help you compare it with other products. | |
| Product | |
| Product Squarelife Invest Police Unit-linked life insurance with periodic contribution | |
| Manufacturer Squarelife Insurance AG, Landstrasse 33, 9491 Ruggell, Liechtenstein www.squarelife.eu | |
| Competent supervisory authority Financial Market Authority Liechtenstein (FMA) www.fma-li.li | |
| For more information , please call +423 237 15 65. | |
| Status of the key information document 01.12.2023 | |
| You are about to acquire a product that is not easy and can be difficult to understand. | |
| What kind of product is it? | |
| Type | This insurance-based investment product is a unit-linked life insurance policy under German law. |
| Goals | <p>The investment is made via the investment funds included in the selected strategy; and return based on the performance of the insurance-based investment product. Further information on the underlying investment options can be found in the document Dokument "Investment concepts and fund list" and the website www.squarelife.eu/priips.</p> <p>With the Squarelife Invest Police, social, ethical and environmental criteria are taken into account in the selection of investment funds.</p> <p>The benefits include benefits according to the units of shares of the investment funds. The benefits according to the units of the investment funds are not guaranteed.</p> <p>They do not participate in the surpluses of Squarelife Insurance AG.</p> |
| Retail investor group | The product is suitable for customers who want to build up retirement capital for their retirement provision over a longer period. Significant fluctuations during the contract, which can arise from the use of investment funds, are accepted by the customer. There is a risk of loss of the contributions paid. The higher the risk class of the underlying investment funds, the higher this risk is. Further information on the type of investor can be found below in the section "What are the risks and what could I get in return?" During the course of the contract, the customer deliberately waives guarantees on the amount of capital. |
| Insurance benefits and costs | <p>The insurance benefit consists of an expiry benefit which depends strongly on the future development of the selected investment funds and the amount of which can therefore not be guaranteed. At the end of the contract, you will receive a payout of the accumulated contract credit. In the event of the death of the insured person before the expiry of the contract, the benefit agreed for the respective insurance year is paid out.</p> <p>The value of these benefits is shown in the section "What are the risks and what could I get in return?" is shown.</p> <p>The calculations in this key information document are based on one 55-year-old insured person and 12 annual investments of 1,200 EUR each. In this model case, the average annual insurance premium for insurance cover is 3.48 EUR. The average annual insurance premium is 0.29% of the total annual investment. This leaves an average of 1,196.52 EUR per year of the entire annual investment. The impact of the insurance premium on the investment return at the end of the recommended holding period averages 0.04% per year. The insurance premium is included in the table "Composition of costs" under other running costs. The effect of the premium part corresponding to the estimated value of the insurance benefits is considered.</p> |
| Runtime | <p>The recommended holding period for this product corresponds to the period until the completion of the 67th anniversary of the product. This is the first time that we have had a debate for the calculations in this sample case, the recommended holding period is 12 years. The product runs on the anniversary of the beginning after the completion of the 100th anniversary of the beginning.</p> <p>In the case of the United Kingdom, the Court of Justice under certain conditions, we can unilaterally terminate the contract if the policyholder or the insured person has violated the pre-contractual duty of notification. Further information can be found in the "Important information for answering the application questions". An unfavorable price development of the investment funds can lead to the fund balance being used up. In this case, the contract ends.</p> |
| What are the risks and what could I get in return? | |
| Risk indicator | Risk and return of the investment vary depending on the underlying investment option |

This risk indicator assumes that you will last the product for 12 years. If you liquidate the investment early, the actual risk may differ significantly, and you may get less in return.

| | | | | |
|---|---|--------------------------|---------------------------|----------------------------|
| The overall risk indicator helps you assess the risk associated with this product compared to other products. It shows how likely it is that you will lose money on this product because the markets are developing in a certain way, or we are unable to pay you. | | | | |
| We have classified this product on a scale of 1 to 7 in risk classes 2 to 7, with 2 corresponding to the lowest and 7 to a high-risk class. | | | | |
| The risk of potential losses from future performance is classified as very low to high. But even in adverse market conditions, it is extremely unlikely that our ability to pay you out will be affected. | | | | |
| This product does not protect against future market developments, so you could lose all or part of the invested capital. | | | | |
| Performance Scenarios | | | | |
| The figures quoted include all the costs of the product itself, but may not include all the costs you have to pay to your advisor or distributor. It also does not take into account your personal tax situation, which may also affect the final premium you receive. What you end up getting out of this product depends on future market development. Future market developments are uncertain and cannot be predicted with certainty. The scenarios presented are based on past results and certain assumptions. The markets could develop differently in the future. The stress scenario shows what you can recover in the event of extreme market conditions. | | | | |
| Recommended holding period: 12 Years Investment example: 1.200 EUR Insurance premium: 3 EUR pro Jahr | | If you exit after 1 year | If you exit after 6 years | If you exit after 12 years |
| Scenarios in case of life | | | | |
| Minimum | There is no minimum. You may lose all or part of your investment. | | | |
| Stress scenario | What you could receive after deducting costs | 1,033 EUR | 7,551 EUR | 16,075 EUR |
| | Annual average return | -24.60% | 1.57% | 1.81% |
| Pessimistic scenario | What you could receive after deducting costs | 1,033 EUR | 8,105 EUR | 19,047 EUR |
| | Annual average return | -24.60% | 3.89% | 4.53% |
| Medium scenario | What you could receive after deducting costs | 1,213 EUR | 8,814 EUR | 20,459 EUR |
| | Annual average return | 1.95% | 6.66% | 5.67% |
| Optimistic scenario | What you could receive after deducting costs | 1,319 EUR | 9,772 EUR | 22,635 EUR |
| | Annual average return | 18.82% | 10.07% | 7.25% |
| Investment amount over time | | 1,200 EUR | 7,200 EUR | 14,400 EUR |
| Case of Death (medium scenario) | | | | |
| Case of insurance | How much the beneficiaries can receive after deducting costs | 1,256 EUR | 9,332 EUR | 21,378 EUR |
| Insurance premium over time | | 3 EUR | 21 EUR | 42 EUR |
| What happens if Squarelife Insurance AG is unable to make the withdrawal? | | | | |
| In Liechtenstein, there is no guarantee fund to cover life insurance claims. | | | | |
| What are the costs? | | | | |
| The person who sells or advises you about this product may charge you additional costs. If this is the case, this person will communicate these costs to you and explain how these costs will affect your investment. | | | | |
| The costs of the investment vary depending on the underlying investment option. For further information and guidance on costs, please see the specific information on the investment options for this insurance product www.squarelife.eu/priips . | | | | |

| Costs over time | | | |
|---|---|--|---|
| The tables show premiums that are taken from your policy to cover various types of costs. These contributions depend on how much you invest, how long you hold the product and how well the product performs. The premiums presented here illustrate an exemplary investment amount and various possible investment periods. We assumed that the product would develop as shown in the middle scenario. | | | |
| Investment 1.200 EUR per year | | | |
| Scenarios | If you redeem after 1 year | If you redeem after 6 years | If you redeem after 12 years (recommended holding period) |
| Total costs | 21 EUR | 235 EUR | 813 EUR |
| Impact on return on investment (RIY) per year | 3.01% | 1.15% | 0.89% |
| This information illustrates how costs reduce your annual return over the holding period. | | | |
| Composition of costs | | | |
| One-off costs | | Annual impact of costs if you exit after 12 years. | |
| Entry costs | Entry costs are indicated in the next column as 'not applicable' because they do not apply. The costs are included in the investment you pay. | Not applicable | |
| Exit costs | Exit costs are indicated as 'not applicable' in the next column as they do not apply if you hold the product until the end of the recommended holding period. | Not applicable | |
| Ongoing costs per year | | | |
| Management fees and other administrative or operating costs | Percentage of the value of your investment per year. This includes ongoing costs for the investment options. This is an estimate based on last year's actual costs. | 0.60% | |
| Transaction costs | Percentage of the value of your investment per year. Included here are transaction costs for the investment options. This is an estimate of the costs we will incur if we buy or sell the underlying assets for the product. The actual amount depends on how much we buy and sell. | 0.000% - 0.022% | |
| The actual costs may differ from the costs mentioned above because they depend, for example, on your personal investment amount or the options you choose. | | | |
| How long should I hold the investment, and can I withdraw money early? | | | |
| Recommended holding period: 12 years | | | |
| You can revoke your contractual declaration within 30 days, see also information according to §§ 1 and 2 VVG-InfoV. Further details can be found in the cancellation policy, which you will receive with the contract documents. | | | |
| Insurance-based investment products taken out for retirement provision are geared towards the start of retirement provision in terms of investment horizon. | | | |
| We recommend the product until the completion of age 67. This is the first time that we have had a debate on this subject. The calculations were carried out for a holding period of 12 years. You can cancel your insurance at any time at the end of the insurance period. You will then receive the surrender value intended for this time minus a cancellation deduction. For more information, please refer to your insurance conditions, which you will receive when you conclude the contract. | | | |
| How can I complain? | | | |
| If you wish to complain about the product, the intermediary or the insurance company, you can do so by letter Squarelife Insurance AG, Landstrasse 33, 9491 Ruggell, Liechtenstein) or by e-mail (info@squarelife.eu). | | | |
| Other relevant information | | | |
| This product is only offered with monthly attachments. In all calculations, monthly investments of 100.00 EUR or a twelfth of 1,200 EUR are used. This corresponds to an investment of 1,200 EUR per year. | | | |
| The information presented in this information sheet is based on EU requirements and may therefore differ from the (pre)contractual information obligations under German law. You will receive further relevant information in your personal sample invoice. When concluding the contract, you will receive important information in the following documents due to legal regulations: insurance policy, information according to VVG-InfoV, insurance conditions, Tax Advisories. | | | |
